

## *MS Fram*

The MS *Fram* is a purpose built expedition vessel, designed especially to navigate polar waters, providing both a comfortable and safe voyage experience. Built in 2007, the original vision for the *Fram* was for her to be a ship which would bring passengers close to nature, wildlife and marine life. For the 2020 season, *Fram* has been completely upgraded with new suites, more environmentally friendly engines and a total makeover of the public areas, including new restaurants and high-tech Science centre.

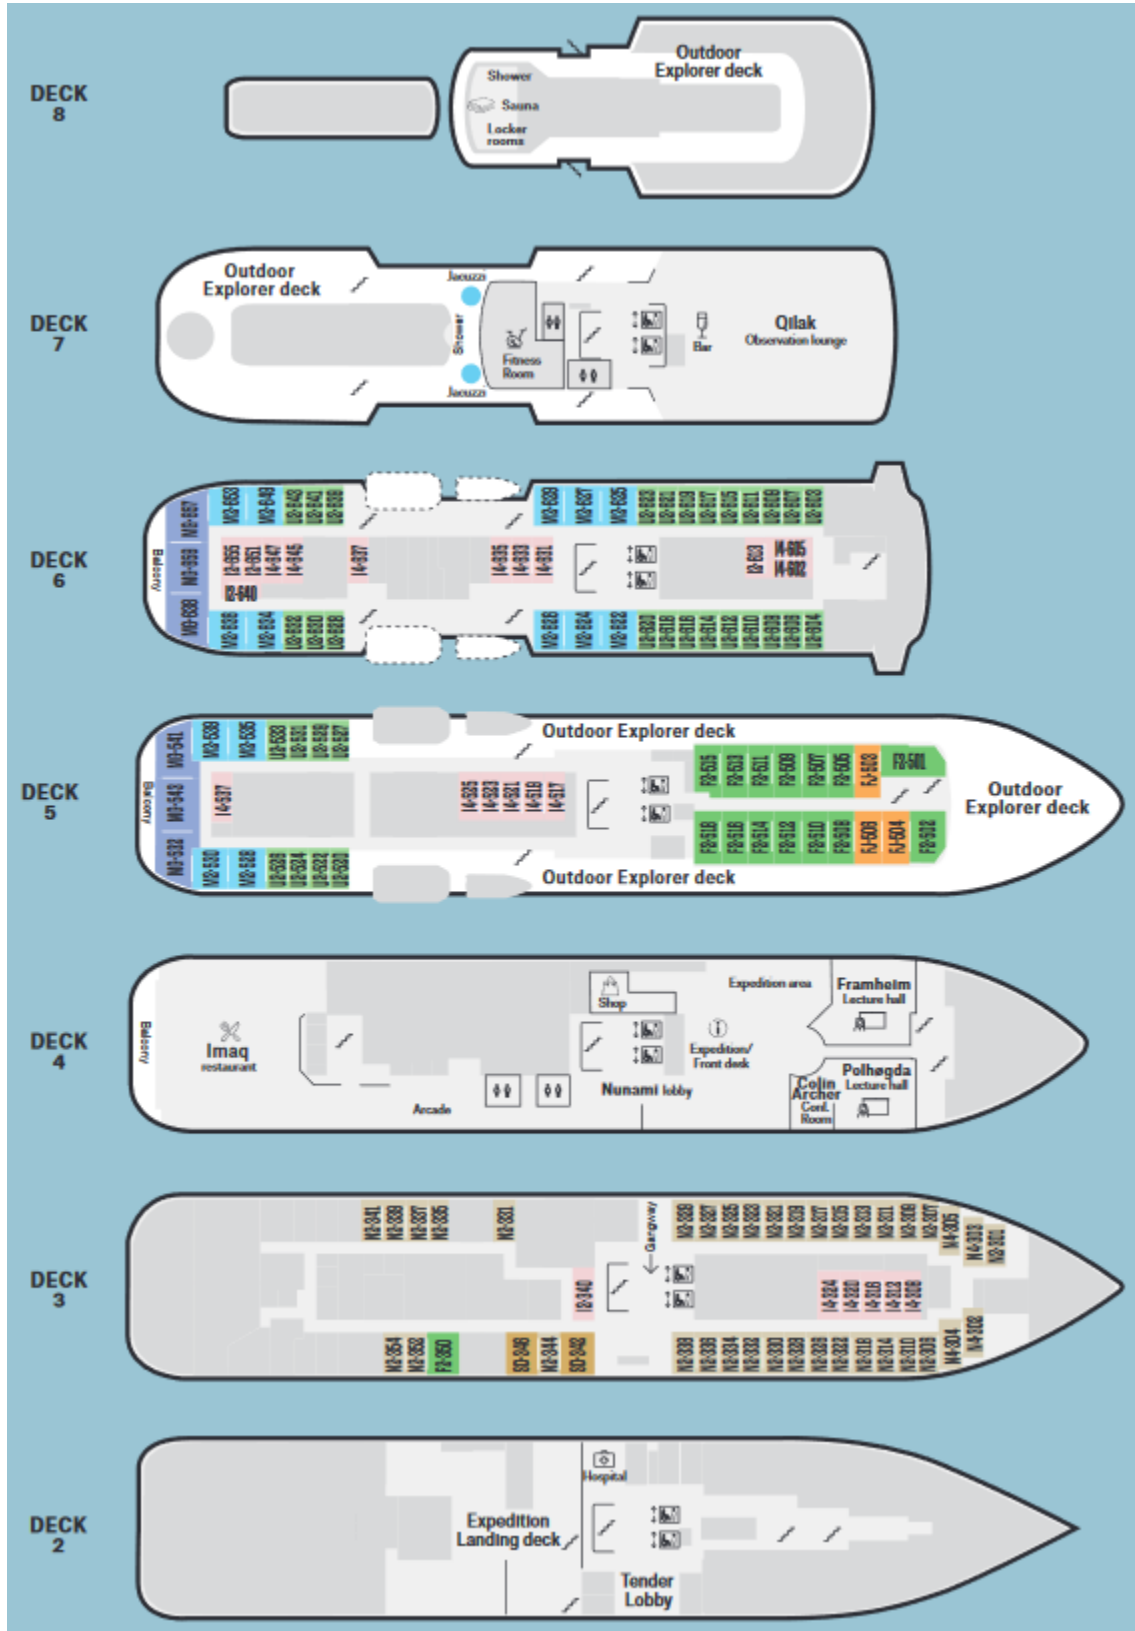

With the capacity in Antarctica for just 200 guests, the *Fram* has a sociable and relaxed atmosphere and is a great vessel for making new friends. Onboard amenities include a sauna, as well as a well-equipped gym and two Jacuzzis. The observation lounge is located at the top of the ship, with comfortable sitting areas and boasting large panoramic windows, ideal for observing wildlife and the ever-changing landscape.

Located on Deck 5, the restaurant serves high quality cuisine; set on different levels, no matter where your table is placed, you will have outdoor views. The far end of the restaurant has a balcony perfect for taking photos from.

Suites are named after Norwegian polar heroes and the ship is scattered with art commissioned by local artists
