

Ocean Endeavour

Ocean Endeavour is a modern expedition vessel expertly engineered to explore the Polar Regions. With an 1A ice-strengthened hull advanced navigation equipment and external stabilisers, she offers a comfortable and stable cruising experience, meanwhile providing opportunities to get closer any potential wilderness action.

The cabins and public areas are of a contemporary design, providing a bright and spacious feel. There is a 360° observation lounge with large windows, perfect for wildlife spotting. She offers guests an excellent voyage experience, with the choice of two restaurants, sundeck, ample deck space for observing the polar landscapes and lounges perfect for presentations and group meetings.

She is currently the only polar adventure ship in Antarctica with a large focus on health and wellness. Amenities include newly built saunas, pool, gym, hot tub, spa service and wellness cafe with juice bar.

There is a wide choice of cabin categories to choose from, suited to single travellers, couples and groups. With 25 single cabins, *Ocean Endeavour* is a great choice for single travellers, especially since there is no single supplement applied for single occupancy porthole cabins. Single travellers wishing to share a cabin can benefit from their own private bathroom facilities.

With the capacity for 199 passengers, all guests will be catered for throughout the voyage. Whilst the International Association of Antarctic Tour Operators (IAATO) dictates that groups of no more than 100 people are permitted ashore at any one time, guests onboard *Ocean Endeavour* need not be concerned. Whilst some groups will be enjoying guided trekking onshore, others will be kayaking, zodiac cruising or paddle boarding.
