

S/V Rembrandt van Rijn

S/V *Rembrandt Van Rijn* was built as a herring lugger early last century. The vessel was rebuilt as a three-mast passenger sailing schooner in the Netherlands in 1994 and sailed in Spitsbergen (1994 - 1996) and in Galápagos (1998 - 2001). The vessel underwent a complete rebuilding and refurbishment program in 2011. The communication and navigation equipment has since been completely renewed according to the latest SOLAS regulations.

It has an experienced crew of 7 persons on board including 2 expedition guides.

The ship is well suited for expedition cruising among small islands and offer good open deck viewing areas, also when under sail. The 2 inflatable rubber crafts (zodiacs) enable landing and wildlife viewing opportunities in otherwise inaccessible areas.

Ice class:

The s/v *Rembrandt van Rijn* has no ice class. During her refit, the bow of the vessel was enforced and is therefore suitable to sail in the Greenlandic waters.

The ship can accommodate a maximum of 34 passengers in 17 twin cabins in (1 twin shared with porthole (shared shower and toilet), 6 twin private inside cabins (with shower and toilet, no porthole), 10 twin private cabins (with shower and toilet and porthole).
