## *RCGS Resolute*

RCGS *Resolute* is a purpose-built polar expedition vessel. Designed for comfort, she is modern, well appointed, safe and ice-strengthened, made specifically to navigate polar waters. Equipped with propellers of stainless steel, high density steel plating and small frame spacing on her hull, she continues into the ice, when other vessels simply cannot. Her stability and speed mean that itineraries can be more flexible – a critical factor in polar waters where ice and weather conditions can sometimes dictate plans.

From small group sessions to briefings for all passengers, there are public spaces onboard the ship ideally suited for each and every need.

Two separate bar and lounge areas featuring 180 degree views and a wonderfully stocked library provide ideal places to relax or catch up on some reading. Other facilities include a theatre style presentation room, gift-shop, gymnasium, wellness centre, Jacuzzi, sauna and steam room and salt water plunge pool.

Onboard meals are prepared by the culinary team and are enjoyed in either of the vessel's two dining rooms, one of which features our popular bistro menu offering quick and easy meals for those prioritizing time out on deck. Both dining rooms have ample and open seating paired with modern furnishings and large picture windows with 180 degree views. Most dietary requirements can be met, provided you notify us in plenty of time before you depart.

There is an open-bridge policy, so passengers are welcome to meet the navigating crew at virtually any time of day; there's always something to learn from the officers on watch and the bridge is one of the best places on the ship for spotting whales and sea birds. The bridge is closed during times of tricky navigation, pilotage, or weather.
