

## SEYCHELLES INNER ISLAND YACHT SAFARIS

Document printed on paper from renewable resources certified by the Forest Stewardship Council

Our **Seychelles Inner Island Yacht** Safaris can be enjoyed onboard one of two beautiful sailing vessels. These tall ships combine the rustic charm of traditional sailing with comfortable accommodation and modern amenities. Both vessels were originally built in the Netherlands in the early 1900s and were used for many years in the fishing industry. They were transformed into Seychelles cruising vessels in the 1990s and have since offered guests the perfect way to explore the archipelago in comfort and style, yet still preserve their interesting testimonies of the past.

With relatively short sailing distances between the Inner Islands, the Seychelles archipelago is the perfect location for exploration. Whilst each one of its 115 islands offers its own unique landscapes and individual character, our yacht safaris allow you to fully appreciate the beauty and natural wonder of the archipelago throughout your sailing experience. You will have convenient access to marine parks, nature reserves and wildlife sanctuaries and will be able to experience the unique charm of each island through land excursions, incorporated directly into the vessel itineraries.

The interesting and varied cuisine aboard is created using fresh local ingredients to create an enticing blend of authentic Creole cuisine with traditional international fare. Breakfast and lunch is served buffet-style, meanwhile evening meals comprise of three-courses. Meals can be enjoyed in the air-conditioned salon or on the covered back-deck.

### **Water Sports**

A number of water sports can be enjoyed from aboard the vessels, including kayaking, tube riding and water skiing. Two person kayaks are available onboard; meanwhile the vessel's tender boat can be used for tube rides and water skiing.

### **Diving and Snorkelling**

The magical underwater world of the Seychelles offers some of the best diving and snorkelling opportunities that the Indian Ocean has to offer. As well as the unique granite boulder formations, the coral atolls and wrecks are home to a plethora of colourful tropical fish, turtles, sharks and a number of pelagic species.

With the capacity to accommodate up to 16 divers, unlimited diving and flexible itineraries, it is possible to access the very best dive sites of the Seychelles' Inner Islands onboard these beautiful sailing vessels. The PADI dive instructors onboard have years of experience diving in the Indian Ocean and will help you to get the very best out of your dives.

**Available onboard:** 18 x 12L aluminium dive cylinders, 2 dive compressors, assorted size wet suits (shorties) and 8 full diving sets for hire.

### **Fishing**

Keep a watchful eye on a bottom line from the back deck, in the hopes of snaring Dorado, Kingfish and other pelagic species, allowing our chefs to cook your special catch, or better yet, prepare the freshest sashimi you've ever tasted!

Deck Plans (Vessel 1)
